

Icebreaker Literacy Facebook Project

The purpose of the project is to create a mock Facebook page detailing your likes and dislikes, your interests, your educational background and other pertinent information. Upon completion of the project, you will be expected to post your page on the READ 6100 wiki so that members of your co-hort, including your professor, will have an opportunity to get to know you better. You will have, roughly, 1 week to construct the page. Use this sheet to complete your research before you begin constructing the page and finding pictures. You may use PowerPoint or any other program that you are familiar with for your mock page.

Create a Facebook page for yourself using the following guidelines:

- Your name at the top of the page
- 1 Profile Picture of you

Basic Information

- Birthday (there's no need to include the year of your birth)
- Hometown
- Place of birth
- Family background (spouse, children, siblings, etc.)
- Education: schools attended

Be creative! You may add clipart, photos, icons – anything that will enhance your project.

Friends/Family Corner:

- 3 to 6 pictures of people that are important in your life

The Wall

- Write 6 significant facts on The Wall. These facts need to highlight important events in your life. Each comment must be about a separate event and include the date. The comment can be from any time and any event in your life and should model the 6 Word Life Stories (length=6 words).

Personal Information: (At least 3 of each)

- Activities
- Interests
- Music Preferences
- Book Preferences (favorite genres, favorite author, favorite books, etc.)
- Movies (favorite genres, favorite actors/actresses, favorite movies, etc.)
- Favorite TV Shows

Contact Information: (Do not post anything that you don't want to be public knowledge!)

- Wiki address (to be added after compiling wiki)
- Email address (required TTU address)

Adapted from project found online at <http://techtoolsforschools.blogspot.com/2010/01/facebook-project-template.html> . Please visit this site for example Facebook pages and template.
